## Ground Services

Given our unique presence in emerging markets at the core of our extensive network/partners, UVAero Services are committed to providing aviation services that we benchmark to the best in the world. Customer requirements dictate the scope of ramp handling services from our dedicated expertise that includes loading and off-loading, dispatch operations, load control, coordination with flights and documentation

Seamless interface with other airport operations – movement control center, fuel providers, caterers, security and more – ensure each aircraft turnaround is complete and fully compliant with all established procedures and service standards.

## Flight Permits

UVAero Services draws on our extensive experience in aviation which gives us a comprehensive understanding of international permit requirements. The distinct professional relationships we have nurtured with a number of authorities within the region allow us to keep up to date with new regulatory developments in the industry and to secure permits quickly and efficiently.

We obtain all permits including overflight and landing clearances for all available flight types and routes. From commercial to GA flights, to emergency and diplomatic missions, we can arrange permits worldwide, with significantly shorter average lead -times than the official / regulatory averages.

## Ferry & Delivery Flight Support

Here at UVAero Services, we assist with the ferrying of aircraft. It may be that your aircraft is due to go into or out of a maintenance or paint facility, it might need to be evacuated or repossessed or perhaps it needs to be delivered to a new owner. Our aircraft ferry service encompasses every requirement needed in order to complete any ferry or delivery flight including flight planning, permissions for aircraft with full or limited airworthiness as well as those operating on a permit to fly, crew travel arrangements, fueling and ground handling. We can ensure you're aware of all costs to be expected and incurred before you instruct us to assist with your flight and you won't find any hidden extras on your invoice.
